PORTFOLIO 2026

HI, THIS IS JACKSON PEAKE

I'm a graphic designer and visual artist from London, United Kingdom. My favorite color is red, though I rarely use it outside of my designs. I strive to create work that is powerful, bold, and memorable in everything I do creatively.

I am currently working toward a graphic design degree at the Community College of Denver, where I've been able to expand on my passion for design through digital tools and new techniques. My interests as a designer include, but are not limited to, web design, product design, logo design, illustration, branding, and typography.

I am currently focused on building a freelance career in graphic design, continuing to grow my network, and developing my personal brand.

PORTFOLIO 2026

Adobe Illustrator, Indesign, Photoshop, AfterEffects, Premiere, Fresco.

Work includes published magazines, illustration and digital works featured in CCD art gallery, Logo animation and Photoshop image regeneration and creation.

Illustrated and original works made with pencil and paper, One of my greatest passions is drawing and I love creating mockups of my work to brainstorm and create a plan.

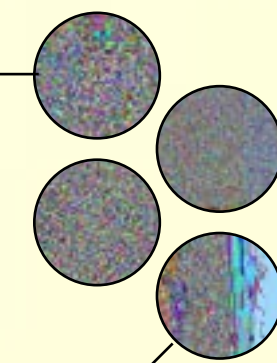

Web Design and development using HTML, CSS and JavaScript, with a focus on cost effective site maintenance and performance.

Experienced with website builders and platforms such as Shopify and Framer, including building and managing fully functional product pages.

Brand identity development for Growing Stellar, an Ecuador based company. Including logo design, color palette creation, and cohesive visual direction. Experience extending the brand across digital platforms through instagram content design, social media branding, and the development of a unified website presence aligned with the company's vision and identity.

PORTFOLIO 2026

Talon magazine

Magazine work for Talon magazine, includes inside spreads for the ComeBack Kid Band, contents pages, staff designer and journalism spreads and general assistance in the look and feel of the magazine.

A magazine concept for Ableton live today, a magazine based around the music production software. This work allowed me to create my first magazine using Indesign and one that I will return to and work on in the future.

Ableton Live Magazine

This magazine was created to show my design work made while attending the community college of Denver. It is a collection of magazine covers, spreads and illustrations.
